## SENATOR BURTON FOUND GUILTY

Jury Brought in Verdict Yester-  
day After Forty-Eight Hours  
Deliberation.

St. Louis, Mo., March 28.—A \$10,000 fine, two years imprisonment, and a perpetual disqualification from holding public office, was the sentence fixed by Judge Adams of the United States Federal district court at 12:30 o'clock today, in the case of Senator Burton, after hearing the verdict of the jury in finding him guilty.

Never in the history of Missouri has the trial of a political criminal case been the occasion of the intense interest as that which has marked the progress of this case from start to finish.

With the ablest array of legal talent on each side, with a United States senator as the conspicuous figure as defendant, with a sensational charge of a conspiracy to defraud the government in postal rental matters to his own interests, the trial could not have been otherwise.

Every inch of ground on both sides was bitterly contested. Each day during the progress of the trial the courtroom has been filled to overflowing with the most prominent citizens of Missouri, men and women. Each day the newspapers containing the drift of the evidence have been eagerly bought on the streets.

Senator Burton has held up during the trial with a marked degree of endurance, but since the case went to the jury shortly after noon Saturday, he has shown outward indications of fatigue caused by the strain and suspense.

The argument for both the prosecution and defense during Friday and Saturday forenoon were listened to by a crowded house. The case went to the jury shortly after noon last Saturday.

## TRINITY RIVER IMPROVEMENTS

A Big Force Cleaning the River  
of Snags, Etc.

Just west of Palestine is a big force of men, mostly Mexicans, cleaning the Trinity river of snags, etc. There is following this gang, a few miles apart, another big gang, who are putting on the finishing touches.

This work is to be followed by the government's dredging the channel, straightening it out where needed and the building of locks to make the stream navigable.

This work, when completed, should give Palestine cheaper freight rates.

## The Game Law.

Palestine, Tex., March 29, 1904.  
Editor Herald, Palestine, Tex.:

Dear Sir—The opinion seems to prevail in parts of the county that the new game law prohibits the killing of blackbirds, and some damage to crops has resulted from this mistake.

Section 15 of the game law is as follows:

"The English or European house sparrow, crows, buzzards, blackbirds, rice birds and owls are not included among the birds protected by this act."

"Nothing herein contained shall be construed to prevent any person from killing birds that are at the time destroying his growing crops."

I will thank you to insert a notice to this effect in your valued paper, so that the error may be corrected.

Very respectfully,

G. R. FOWLER.

## Bottled Up Again.

London, March 28.—According to the accounts from Japanese sources, Admiral Togo's attempt to bottle up Port Arthur fleet with merchant steamers has been successful. The same sources of information say the bombardment of Port Arthur was followed by the sinking of the steamers. Russian official reports make no mention of this.
